Information about roulette

Roulette is one of the most popular games, in both online and brick-and-mortar casinos. If you want to enjoy roulette without

risking your money,

pick one of the games on this list and start playing.

All of the games are identical to those you can find in online casinos when playing for real money. They

have the same design, features and payout ratios, with the only difference being the fact that you

are playing just for fun in a demo mode.

Online roulette games you can play for free

are a great way to get to know the game of roulette and its rules. However, it doesn't hurt to learn more about the game, which you can do by reading our article about roulette rules. It will teach you everything you need to know to play roulette.

Fortunately, that's not necessarily needed. Roulette is a very simple game.

You basically just need to place a bet on any number or other sections on the roulette table layout and wait for the result of the spin. You can't influence the result of the game and almost all bets have the same return to player, so the only thing you can influence is the volatility (by changing the types of bets you place).

Note: We mentioned that almost all bets have the same RTP. There is a bet on American roulette on five numbers (0, 00, 1, 2 and 3), which has the worst payout ratio you can get on a roulette table. If you ever play roulette for real money, you should definitely stay away from this bet, and ideally from American roulette in general, as well. Check out our full list of roulette odds to learn more about the differences between various types of roulette bets.
