Hand2Note Pro.Tools collection is designed to expand the capabilities of your game to exploit opponents. It includes static, positional, dynamic HUDs for 6-9max tables and HUD; Pop-ups (including those with graphic display of postflop ranges) and badges. Additional statistics will allow you to see more places where you can use the weaknesses of your opponents and thereby earn extra profit both pre-flop and post-flop. For bluffs: using high folds preflop and postflop. For valuebets: the use of lines and precisely those bet sizes that opponents often call. Statistics on bet sizing, actions on various board textures, game statistics in different positions (SB vs BB, Tj T\* BT /F1 12 Tf 50 416 Td (& BTN vs Blinds thanks to the Hand2Note Pro.Tools collection. The efficiency of using statistics from your Hand2Note will increase many times over due to the huge array of competently combined data in the collection. It is possible to test the pack for free for 20 days. Detailed information on how to do this is on the official website (in the contact) Tj T\* BT /F1

Types of HUDs in Pro.Tools package  
Static HUDs: Same HUD for all players at the table, HUD like in HM2 and PT4.  
Positional HUDs: Different HUD For players before and after you.  
Classic positional HUDs for 6/9max tables are available for editing.  
Positional HUDs for multi-tabling (compact HUD allowing to p) Tj T\* BT

Position Heads-Up HUD for starting 6/9max tables.  
Positional HUD with multiple levels of stats: HUDs have different stats for r players depending on the number of hands and samples.  
In HUD accurate statistics when there are samples, if not there are no samples then the player has common statistics.
