To withdraw money from F12, first ensure you have the necessary permissions and funds available. Follow the steps below for a successful transaction:

Access the F12 interface

Open your web browser and press F12 to access the developer tools console.

Locate the withdrawal function

In the console, look for a button, option, or command labeled 'Withdraw' or 'Cash Out'.

Enter the amount

Once you've located the withdrawal function, input the amount you wish to withdraw.

Confirm the transaction

Review the entered amount and confirm the transaction to proceed. The funds will then be withdrawn from your F12 account.

Important

Make sure you have sufficient balance and the proper authorization to perform the withdrawal.

If you face any issues, consult the F12 documentation or contact their support team for assistance.
