\*Disclaimer: this game contains Ads. \* A new way to play solo games of poker! Poker Pop is a domino style tile matching game where you place cards onto the board to create poker hands. Score as many points as you can before filling up the board. I like the combination of poker hands and dominoes. The sound effects and music are relaxing and don't distract from putting my brain into a thinking mode. Overall a polished game worth your time. Usually because I don't really know anything about poker I can't play these games, but the page that shows the hands is super helpful and makes it so I can! It's a fun, well done game with lots of really nice touches.

Thank you so much for the kind review!! - Andrey

This game is an instant favorite for me! It's got a beautiful UI, a really neat concept, and the ads are unobtrusive. It's fun trying to strategize and plan my next moves, while also getting my poker fix on. Gonna be my go to pick-up-and-play game for a while! And the music is rad too!

Great work!
