The ranking of most hands is the same as in Poker except you are using only three cards and a straight flush is higher than a flush. So a mini-royal flush (AKQ) and straight flush are the highest hands.

Some examples of hands and their rankings:

- Three of a kind: Three cards of the same rank, e.g., three Aces.
- Two pair: Two pairs of cards of the same rank, e.g., two Aces and two Kings.
- One pair: One pair of cards of the same rank, e.g., one Ace and one King.
- High card: No pairs or other combinations, e.g., Ace, King, Queen, Jack, 10.

The complete average hand in 3-card poker is queen-6-4. Therefore, the optimal strategy would be to play all hands greater than or equal to king-7.
